A06 Cover Note to the Assessor

What is enclosed, what changed since the previous submission, and how the documents fit together.

Liquid and Powder Acrylic Enhancement CPD Course | Course author: Jessica Jane Preston | Version 1.2, November 2026

Dear Accreditation and Compliance Team,

Thank you for your review of application #20893, Liquid and Powder Acrylic Enhancement CPD Course. This submission replaces the learner manual uploaded on 26 October 2026 with version 1.2 and adds the supporting documents your framework asks for. The manual keeps its structure and has been revised throughout: the wording carried over from our gel polish template has been corrected, every technique chapter now has original images, eleven of them the school's own photographs (thirteen new figures covering the chemistry, the bead, the apex and zones, tips and forms, building the structure, filing, infill and removal), Chapter 2 now covers the origin of the service and pricing and promotion, Chapter 1 states the safety-critical criteria and the model requirement, a conclusion chapter has been added, and the references have been checked and extended. Separate theory and practical assessments with written criteria, a lesson plan whose hours match the application, and the author's CV and certificates are enclosed.

Enclosures

Document	What it is
A01 Learner Manual v1.2	The full learning material: 22 chapters, 25 figures (12 licensed clinical photographs and the nail-unit diagram, 13 original technique illustrations), 44 tables, learner activities, knowledge checks, forms and references.
A02 Theory Assessment Paper v1.2	38 questions, 50 marks: 28 multiple choice, 8 short answer, 2 scenarios. Pass 40 (80%). 60 minutes.
A03 Theory Mark Scheme v1.2	Answers and mark allocation for every question, marking rules, the safety-critical rule and the re-sit rule.
A04 Practical Observation Marking Sheet v1.2	20 criteria in six sections, 7 safety-critical, scored 0 to 2; pass 32/40 and every safety-critical criterion met. Adapted from your practical observation template.
A05 Lesson Plan v1.2	On your lesson plan template: course details, health and safety, equal opportunities, aim, the ten objectives, a timed day (7.5 guided learning hours), pre-course and post-course sections. Total 19.5 hours, matching the application.
Author CV and certificates	Jessica Jane Preston's CV on your template, with her VTCT Level 2 NVQ Diploma in Nail Services and Award in Education and Training certificates.

How the framework is addressed

- Accessible: adjustments listed in the application's Additional Information, in the lesson plan and on the assessment papers; large-print and digital manual; the manual is broken into short sections with images, tables and boxed key points.
- Content: UK legislation current to October 2026 (COSHH, PPE 2022 amendment, RIDDOR, UK GDPR, the 2026 TPO regulations, local licensing by nation); HSE COSHH Essentials SR13 for nail bars, ICO, ASA, BAD, ECHA and NHS sources cited with links in Chapter 22; the accurate legal position on MMA stated rather than the common 'illegal in the UK' claim; clinical photographs are openly licensed and credited.
- Creativity: 25 figures, 44 tables, boxed key points, scenarios, consultation role play, bead-reading exercise, teach-back and pair activities, knowledge checks; demonstration, supervised practice and discussion on the day.

- Relevant: the ten learning outcomes map to chapters, to the lesson plan objectives column and to the practical criteria; the title, description and outcomes on the application and on our website match the manual.
- Eligibility: minimum Level 2 Beauty Therapy, Nail Services or equivalent, aged 18 or over, no known acrylate sensitivity; stated in the manual (Chapter 1), the lesson plan and the application's Description.
- Details: the course is titled Liquid and Powder Acrylic Enhancement CPD Course throughout; the Description on the application is an introduction, content summary, outcomes and entry requirements, not a web link.
- Intellectual property: original illustrations owned by the school; clinical photographs reproduced under Creative Commons with author, licence and source beneath each; no brand is used as the course name.
- Tested: separate theory paper with mark scheme and practical observation with written criteria and safety-critical items; three case studies; certificate only on completion of all three.
- Expertise: the author's CV and certificates are enclosed; the author delivers the course.
- Duration: 19.5 hours in total, 3 pre-course, 7.5 guided learning hours on the day, about 9 for the case studies; the lesson plan shows the day's timings.

We would welcome any further comment and will respond promptly.
