Lash and Brow Tint and Wax CPD Course | Course author: Jessica Jane Preston | Version 1.0, November 2026

Dear Accreditation and Compliance Team,

This is a new application from The Looking Glass Beauty School for the Lash and Brow Tint and Wax CPD Course. It is a single-subject course in the sense used by the industry's occupational standards: eyelash and eyebrow tinting and eyebrow shaping are one treatment group, consulted for, patch tested, protected and performed together in salons, and they are taught and assessed together here. The course does not teach lash lifting, lamination, henna, extensions, threading or any other eye-area service; those are described only so that learners can recognise them, work alongside them and refer.

The materials are written to your framework and your 'Six Simple Steps' structure, and to the standard of the Gel Polish Nails manual you have reviewed: 'CPD Course' in the title, the Level 2 entry requirement stated, anatomically correct original illustrations in the anatomy, conditions and technique sections, UK legislation current to November 2026 including the retained Cosmetics Regulation's conditions for eyelash tints and the Digital Markets, Competition and Consumers Act 2024, separate theory and practical assessments with written criteria and safety-critical items, three post-course case studies, a lesson plan whose hours match the application, and the author's CV and certificates.
